SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

Class 395 Established

Class 395, Information Processing System Organization, has been established and replaces class 364, subclass 200 (General Purpose Programmable Digital Computer System), subclasses 513-513.5 (Artificial Intelligence), subclass 518-523 (Control of Data Presentation), and subclass 900 (Miscellaneous Digital Processing Systems). On June 26, 1990, examiners and classifiers met with public searchers to discuss the preliminary schedule. After consideration of comments received in that meeting, a proposed schedule was generated. The proposed hierarchial schedule of primary subclasses with their associated definitions was published in the *Official Gazette*, Vol. 1119, No. 3 on Oct. 16, 1990. Following evaluation of public comments, the final schedule for class 395 was created. The final Hierarchical schedule of primary subclasses and associated definitions are shown below.

NOTE: The CASPIR terms can be electronically searched on the APS Messenger system by using Class 364, Digest 1 (General Purpose Programmable Digital Computer Systems) and class 364, Digest 2 (Miscellaneous Digital Data Processing Systems).

Class 395 was established as of Nov. 5, 1991, and assigned to Group 2300 Art Units as follows:

Definition of the class

I. GENERAL STATEMENT OF THE CLASS SUBJECT MATTER

(1) This is the generic class for digital processing systems and corresponding methods for performing information processing functions and methods for controlling operation of such processing systems.
(2) This class also provides for artificial intelligence, i.e., systems or methods which have the capacity to perform one or more of the functions or recognition, speech signal processing of knowledge processing (i.e, propositional logic, reasoning, learning self-improvement), complex operations of manipulator (e.g. robot control, or inexact reasoning (e.g., fuzzy logic).
(3) This class also provides for methods or apparatus for processing data for (1) static presentation (hard copy) or (2) display, wherein the processing of data for display includes the creation or manipulation of graphic objects (e.g., artificial image) or text by a computer prior to use with or in a specific display system.

1. ARTIFICIAL INTELLIGENCE:

Subject matter under the class definition wherein the system or method has the capacity to perform one or more of the functions of recognition, speech signal processing, knowledge processing (i.e., propositional logic, reasoning, learning, self-improvement), complex operations of a manipulator (e.g., robot control), or inexact reasoning (e.g., fuzzy logic).

100. DATA PRESENTATION/COMPUTER GRAPHICS (e.g., IMAGE GRAPHICS, TEXT):

Subject matter under the class definition comprising methods or apparatus for processing data for (1) static presentation (hard copy) or (2) display, wherein the processing of data for display includes the creation or manipulation of graphic objects (e.g., artificial images) or text by a computer prior to use with or in a specific display system.

200. TRANSMISSION OF INFORMATION AMONG MULTIPLE COMPUTER SYSTEMS:

Subject matter under the class definition comprising apparatus or processes for transmitting information (e.g., address, data, control, and status) between multiple computer systems via a communication medium and for performing significant processing in which there is a change in the content of the data before or after the transmission.

250. BUFFERING FUNCTIONS:

Subject matter under the class definition including means or steps, involving buffering structure or operations, which change the speed of information exchange among any combination of processing component(s), memory component(s) and I/O component(s).

275. I/O PROCESSING:

Subject matter under the class definition including means or steps for the control of input/output components or functions.

325. SYSTEM INTERCONNECTIONS:

Subject matter under the class definition comprising details of means or steps relating to interconnections or communication between component(s) connected to an interconnection medium with a *single* digital processing system dealing with digital information processing.

375. INSTRUCTION PROCESSING:

Subject matter under the class definition including details of instruction prefetching, fetching, buffering, decoding, pipelining, and execution.

400. STORAGE ADDRESS FORMATION:

Subject matter under the class definition including means or methods for forming or manipulating memory addresses.

425. STORAGE ACCESSING AND CONTROL:

Subject matter under the class definition including the control of access to memory components and the accessing of the memory components.

500. COMPATIBILITY, SIMULATION, OR EMULATION OF SYSTEM COMPONENTS:

Subject matter under the class definition including details of means or steps by which any one of a combination of processing component(s), memory component(s) and I/O component(s) is made compatible with at least one other processing component, or made to simulate or emulate another processing component.

Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries (PDLs), receive current issues of U.S. Patents and maintain collections of earlier-issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections, which are organized in patent number sequence, are available for use by the public free of charge. Each of the PDLs, in addition, offers supplemental reference publications of the U.S. Patent Classification System, including the *Manual of Classification*, *Index to the U.S. Patent Classification*, *Classification Definitions*, and provides technical staff assistance in their use to aid the public, in gaining effctive access to information contained in patents. CASSIS (Classification And Search Support Information System); which provides direct, on-line access to Patent and Trademark Office data, is available at all PDLs. Facilities for making paper copies of patents from either microfilm or paper collections are generally provided for a fee.

Since there are variations in the scope of patent collections among the PDLs and in their hours of service to the public, anyone contemplating use of the patents at a particular library is urged to contact that library, in advance, about its collection and hours in order to avert possible inconvenience.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries (PDLs), receive current issues of U.S. Patents and maintain collections of earlier-issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections, which are organized in patent number sequence, are available for use by the public free of charge. Each of the PDLs, in addition, offers supplemental reference publications of the U.S. Patent Classification System, including the *Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions*, and provides technical staff assistance in their use to aid the public, in gaining effctive access to information contained in patents. CASSIS (Classification And Search Support Information System); which provides direct, on-line access to Patent and Trademark Office data, is available at all PDLs. Facilities for making paper copies of patents from either microfilm or paper collections are generally provided for a fee.

Since there are variations in the scope of patent collections among the PDLs and in their hours of service to the public, anyone contemplating use of the patents at a particular library is urged to contact that library, in advance, about its collection and hours in order to avert possible inconvenience.

NOTICE OF FINAL RULEMAKING
PATENT AND TRADEMARK FEE REVISIONS

The Patent and Trademark Office is amending its rules of practice in patent and trademark cases, Parts 1 and 2 of Title 37, Code of Federal Regulations, to adjust patent and trademark fee amounts.

Public Law 102-204, which was enacted on December 10, 1991, waives the normal 30 day notice period and allows fees to become effective in fiscal year 1992 on or after one day after publication of a notice in the *Federal Register*. A notice was published on Friday, December 13, 1991 at 56 FR Part III. The effective date for the new fee amounts is Monday, December 16, 1991.

Any fee amount that is paid on or after December 16, 1991 is subject to the new fee schedule.

Your attention is drawn to the following major changes in the fee schedule:

- The legislation established comparable maintenance fee amounts for all patents based on applications filed on or after December 12, 1980. All first stage maintenance fees are now $900 for a large entity and $450 for a small entity; second stage maintenance fees are now $1,810 for a large entity and $905 for a small entity; and third stage maintenance fees are now $2,730 for a large entity, and $1,365 for a small entity.

- The small entity provision is continued and made applicable to all maintenance fee payments.

- The trademark application filing fee was increased to $200. Several trademark service fees have been adjusted, but all other trademark processing fees remain unchanged.

If you have any questions or comments, or would like to have a copy of the *Federal Register* notice, please contact the Office of Long-Range Planning and Evaluation by phone at 703-305-8510 or by fax at 703-305-8436.

U. S. PATENT AND TRADEMARK OFFICE
Effective December 16, 1991

The U. S. Patent and Trademark Office has amended its rules of practice in patent and trademark cases, Parts 1 and 2 of Title 37, Code of Federal Regulations to adjust patent and trademark fee amounts.

Any fee payment due and paid on or after December 16, 1991, must be paid in the revised amount. The date of mailing indicated on a proper Certificate of Mailing under either 37 CFR 1.8 or 37 CFR 1.10 will be considered to be the date of receipt and payment in the Office.

As this fee sheet is a summary and the content of rules also may be changing, you should refer to the notice published in the Federal Register on December 13, 1991 at 56 FR Part III. See also Official Gazette of December 17, 1991.

The fees which are subject to reduction for small entities who have established status (37 CFR 1.27) are shown in a separate column.

[Docket No. 910373-1297]

RIN 0651-AA45

Revision of Patent and Trademark Fees

AGENCY: Patent and Trademark Office, Commerce

ACTION: Final rule.

SUMMARY: The Patent and Trademark Office (PTO) is amending the rules of practice in patent and trademark cases, Parts 1 and 2 of title 37, Code of Federal Regulations, to adjust certain patent and trademark fee amounts and to amend certain procedures in accordance with the applicable provisions of the Patent and Trademark Office Authorization Act of 1991, which was passed by the House of Representatives on November 25, 1991, and by the Senate on November 27, 1991, as H.R. 3531, and signed into law on December 10, 1991.

H.R. 3531 subsections 5(a)(1) and (2), sets base amounts for fees established by 35 U.S.C. 41(a) and 41(b). Subsections 5(a)(1) and (2) also add certain fees related to national processing of Patent Cooperation Treaty applications and maintenance fees established under Pub. L. 96-517 to 35 U.S.C. 41(a) and 41(b), respectively. The base amounts set by subsections 5(a)(1) and (2) are subject to the surcharge to be set by the Commissioner to recover the deficit reduction target of $95,000,000 in fiscal year 1992 as required by the Omnibus Budget Reconciliation Act of 1990, Pub. L. 101-508, as amended by subsection 2(a) of H.R. 3531. Subsection 5(a)(3) of H.R. 3531 gives the Commissioner authority to establish fees under 35 U.S.C. 41(d) to recover average costs, and sets the fee amount for three specific services provided by the PTO. The small entity provision, 35 U.S.C. 41(h), is continued. The small entity provision is also made applicable to maintenance fee payments based on applications filed on or after December 12, 1980, but before August 27, 1982, and to certain fees related to the national processing of Patent Cooperation Treaty (PCT) applications. H.R. 3531 allows the adjustment of trademark fees to reflect fluctuations in the Consumer Price Index (CPI).

EFFECTIVE DATE: The rules are effective December 16, 1991 except for §§ 1.445(a) and 1.1482(a) which will be effective on December 27, 1991.

FOR FURTHER INFORMATION CONTACT: Frances Michalkewicz by telephone at (703) 305-8510 or by mail marked to her attention and addressed to the Commissioner of Patents and Trademarks, Washington, D.C. 20231.

SUPPLEMENTARY INFORMATION: This rule change is designed to adjust the Patent and Trademark Office fees in accordance with the provisions of H.R. 3531. Patent and trademark fees were set on October 1, 1982, in accordance with the provisions of title 35, United States Code, and the provisions of section 31 of the Trademark (Lanham) Act of 1946, as amended (15 U.S.C. 1113).

On November 5, 1990, the Omnibus Budget Reconciliation Act of 1990 (Pub. L. 101-508) imposed a 69 percent surcharge on all patent fees set under 35 U.S.C. 41(a) and (b). Section 10101 of Pub. L. 101-508 required the Commissioner to make recommendations for any statutory changes necessary to implement new fee proposals. PTO's authorizing legislation (Pub. L. 100-703) was to expire on September 30, 1991. Legislation to authorize appropriations for the Patent and Trademark Office for fiscal years 1992 and 1993 and for other purposes was introduced in the House of Representatives on March 22, 1991, as H.R. 1613, and in the Senate on April 9, 1991, as S. 793.

A notice of proposed rulemaking to adjust patent and trademark fees in accordance with the proposed provisions of H.R. 1613 and S. 793 was published in the *Federal Register* on May 10, 1991, at 56 FR 21890, and in the *Official Gazette* on May 21, 1991, at 1126 OG 56. A public hearing on the notice of proposed rulemaking was held on June 12, 1991.

For fiscal year 1992, H.R. 3531 waives requirements for advance publication, notice and comment contained in the patent and trademark laws and the Administrative Procedures Act, and revised fee amounts take effect on or after one day after publication in the *Federal Register*. To provide continuity, this final rule package modifies the notice of proposed rulemaking that was published in the *Federal Register* on May 10, 1991, to reflect the provisions of H.R. 3531. Comments received in response to the notice of proposed rulemaking have been addressed, even though certain comments may have been rendered moot by provisions of H.R. 3531.

BACKGROUND:

Statutory Provisions

Patent fees are authorized by 35 U.S.C. 41 and 35 U.S.C. 376. Subsections 41(a) and (b) of title 35, United States Code, establish a number of statutory fees. Among them are fees for filing a patent application, issuing a patent, and maintaining a patent in force. Subsections 5(a)(1) and (2) of H.R. 3531 amend 35 U.S.C. 41(a) and (b) by adjusting the amounts of the patent statutory fees currently established by those subsections, and by specifying certain fees related to the national processing of Patent Cooperation Treaty applications and maintenance fees on patent applications filed on or after December 12, 1980, but before August 27, 1982, in 35 U.S.C. 41(a) and 41(b), respectively.

The Omnibus Budget Reconciliation Act of 1990, Pub. L. 101-508, imposed a 69 percent surcharge on all fees authorized by 35 U.S.C. 41(a) and (b), effective November 5, 1990. Subsection 2(b) of H.R. 3531 amends that Act to require the Commissioner to establish surcharges under section 10101(a) of Pub. L. 101-508 on all fees established under 35 U.S.C. 41(a) and 41(b) to recover $95,000,000 in fiscal year 1992.

Subsection 41(h) of title 35, United States Code, authorizes a 50 percent reduction in the fees paid under 35 U.S.C. 41(a) and 41(b) by independent inventors, small business concerns, and nonprofit organizations who meet the prescribed definitions. This reduction will apply to the fees newly established in subsections 41(a) and 41(b).

Subsection 5(a)(3) of H.R. 3531 amends 35 U.S.C. 41(d) to allow the Commissioner to establish fees for all other processing, services, or materials related to patents and not

specified in the amended section 41 to recover the average cost of providing these services or materials. Section 5(a)(3) also establishes the amounts for three services.

Subsection 5(b) of H.R. 3531 amends subsection 41(f) of title 35, United States Code, to provide that fees set under 35 U.S.C. 41(a) and (b) may be adjusted on October 1, 1992, and every year thereafter, to reflect fluctuations in the CPI over the previous 12 months.

Subsection 5(c) amends subsection 41(g) of title 35, United States Code, to allow new fee amounts established by the Commissioner under section 41 to take effect thirty days after notice in the *Federal Register* and the Patent and Trademark Office *Official Gazette*. However, sections 2(c), 5(c)(2) and 13 of H.R. 3531 provide that patent fees established for fiscal year 1992 will take effect on or after one day after such fees are published in the *Federal Register*.

Section 31 of the Trademark (Lanham) Act of 1946, as amended (15 U.S.C. 1113), authorizes the Commissioner to establish fees for the filing and processing of an application for the registration of a trademark or other mark, and for all other services and materials relating to trademarks and other marks.

Subsection 42(c) of title 35, United States Code, provides that trademark fees available to the Commissioner are to be used exclusively for the processing of trademark registrations and for other services and materials related to trademarks. Subsection 5(e) of H.R. 3531 modifies 35 U.S.C. 42(c) so that trademark fees may be used for the processing of trademark registrations and for other activities, services, and materials relating to trademarks and to cover a proportionate share of the administrative costs of the PTO.

Subsection 5(f) amends section 31(a) of the Trademark Act of 1946 (15 U.S.C. 1113(a)) to allow trademark fees to be adjusted once each year to reflect, in the aggregate, any fluctuations during the preceding 12 months in the CPI. However, during fiscal year 1992, trademark fees may be adjusted to reflect fluctuations in the CPI during the preceding three years.

Subsection 5(f) also amends section 31 to allow new fee amounts to take effect thirty days after notice in the *Federal Register* and the Patent and Trademark *Official Gazette*. However, fees established for fiscal year 1992 will take effect on or after one day after such fees are published in the *Federal Register*.

Subsection 5(g) of H.R. 3531 makes conforming amendments to section 376 of title 35, United States Code, that authorizes the establishment of fees related to applications filed under the provisions of the PCT. Under current law, section 376 permits the Commissioner to set certain fees related to these applications. Amendments made in subsection 5(a)(1) of H.R. 3531, however, set some PCT-related fees in the new subsection 41(a).

Revised fee amounts go into effect on the effective date noted above, with the exception of certain PCT fees (1.445(a), and 1.482(a)), which go into effect on December 27, 1991. Under an agreement between the PTO and the World Intellectual Property Organization (WIPO) which establishes PTO as an International Searching and Examining Authority under the PCT, any amendment to certain PCT fees can take effect only after PTO provides 30 days written notice to WIPO. General Procedures

Recovery Level Determinations: Fees have been adjusted for a planned recovery of $426,000,000 in fiscal year 1992. The fiscal year 1992 PTO budget will be adjusted accordingly.

Amounts for fees established by 35 U.S.C. 41(a) and 41(b) and 371(c)(1) are amended by H.R. 3531. Subsections 41(a) and 41(b) of title 35, United States Code, now include certain fees related to the national processing of PCT applications and maintenance fees on patent applications filed on or after December 12, 1980, but before August 27, 1982. Fee amounts established by subsections 41(a) and 41(b) are subject to the provisions of the Omnibus Budget Reconciliation Act of 1990, as amended by H.R. 3531. These provisions require that $95 million be raised in fiscal year 1992 for deficit reduction purposes. As a result, the fees established in subsections 41(a) and 41(b) have been increased by 38 percent to generate this $95,000,000 in fiscal year 1992.

After application of the 38 percent increase to the base fees, amounts were rounded by applying standard arithmetical rules so that the amounts rounded would be de minimis and convenient to the user. Fees of $100 or more were rounded to the nearest $10. Fees between $2 and $99 were rounded to the nearest even number so that the comparable small entity fee would be a whole number.

Non-statutory patent service fees and PCT processing fees are adjusted to recover planned costs for 1992. However, three patent service fees are set by statute. These are assignment fees, printed patent copy fees and photocopy charge fees. In response to comments on the proposed level of the non-statutory patent fee amounts and the direction by Congress to reduce costs overall and, hence, associated fees, from the requested 1992 budget of $462 million to a level of $426 million, many of the adopted fee amounts are less than the proposed amounts.

Subsection 5(f)(2) of H.R. 3531 allows trademark fees to be adjusted in fiscal year 1992 to reflect changes over the prior three fiscal years in the Consumer Price Index. The Office of Management and Budget has determined that the PTO should use Consumer Price Index-U to adjust trademark fees. The Department of Labor's Consumer Price Index is made public approximately 21 days after the end of the month being calculated. The trademark fees are being adjusted by 13.8 percent.

Workload Projections: Determination of workloads varies by fee code. Principal workload projection techniques are as follows:

Patent and trademark application workloads are projected from statistical regression models using recent application trends. Patent issues are projected from an in-house patent production model and reflect examiner production achievements and goals. Patent maintenance fee workloads utilize patents issued 3.5, 7.5 and 11.5 years prior to payment and assume payment rates of 75 percent, 50 percent and 25 percent, respectively. Trademark affidavit projections are based on filing trends for marks registered five to six years prior. Trademark renewal projections are based on marks registered 20 years prior to 1992. Service fee workloads follow linear trends from prior year activities. Workload estimates are calculated by the PTO's Office of Budget and the office responsible for the fee activity.

A comparison of existing and revised fee amounts is included as Appendix C to this notice.

Any fee amount that is paid on or after the effective date is subject to the new fee schedule. For purposes of determining the amount of the fee to be paid, the date of mailing indicated on a proper Certificate of Mailing, where authorized under 37 CFR 1.8, will be considered to be the date of receipt in the PTO. A "Certificate of Mailing under section 1.8" is not "proper" for items which are specifically excluded from the provisions of section 1.8. Section 1.8(a)(2) should be consulted for those items for which a Certificate of Mailing is not "proper." Such items include, inter alia, the filing of national and international applications for patents and the filing of trademark applications. The provisions of 37 CFR 1.10 relating to filing papers and fees with an "Express Mail" certificate, however, do apply to any paper or fee (including patent and trademark applications) to be filed in the PTO. If an application or fee is filed by "Express Mail" with a proper certificate dated on or after the effective date of the rules, the amount of the fee to be paid is the fee established herein.

A discussion of specific sections is set forth below.

DISCUSSION OF SPECIFIC RULES

37 CFR 1.12 Assignment records open to public inspection.

Section 1.12, paragraph (a), is amended to change the reference for payment of a fee to section 1.19(b)(3), and add a reference to the fee set in the trademark rules at section 2.6(b)(5). Section 1.12, paragraph (d), is amended to change the reference for payment of a fee to section 1.21(j), and add a reference to the fee set in the trademark rules at section 2.6(b)(10).

37 CFR 1.13 Copies and certified copies

Section 1.13 is amended to revise paragraph (b) to be consistent with revisions to paragraphs 1.19(b) and 2.6(b).

37 CFR 1.16 National application filing fee.

Section 1.16, paragraphs (a), (b), (d) and (f)-(j), is revised to reflect the amendments made by subsections 2(b) and 5(a)(1) of H.R. 3531 as described above under General Procedures.

Section 1.16, paragraph (e), is revised to adjust the patent application surcharge fee authorized by 35 U.S.C. 41(d) and 111. Paragraph (e) has been modified from the proposal to provide a two-tier fee structure for the payment of the surcharge. The fifty percent reduction for those that have established small entity status is applicable to the surcharge for filing the basic filing fee, oath or declaration on a date later than the filing date of the application. In response to comments on the proposed level of the non-statutory patent fee amounts and Congressional direction to recover a lower level of planned costs overall, the adopted fee amount is less than the amount proposed.

VOL 1133 ISS 4 DE 24 1991 UMI

37 CFR 1.17 Patent application processing fees.

Section 1.17, paragraphs (a)-(g), (l) and (m), is revised to reflect the amendments made by subsections 2(b) and 5(a)(1) of H.R. 3531 as described above under General Procedures.

Section 1.17, paragraphs (h)-(k), is revised to adjust fees authorized by 35 U.S.C. 41(d) as amended by subsection 5(a)(3) of H.R. 3531. In response to comments on the proposed level of the non-statutory patent fee amounts and Congressional direction to recover a lower level of planned costs overall, the adopted fee amounts are less than the proposed amounts.

Section 1.17, paragraphs (n) and (o), is revised to adjust fees authorized by 35 U.S.C. 41(d) as amended by subsection 5(a)(3) of H.R. 3531. The fee amounts in 37 CFR 1.17(n) and (o) are higher than proposed because the amount of the application basic filing fee on which these amounts are based was increased by subsections 2(b) and 5(a)(1) of H.R. 3531.

37 CFR 1.18 Patent issue fees.

Section 1.18 is revised to reflect the amendments made by subsections 2(b) and 5(a)(1) of H.R. 3531 as described above under General Procedures.

37 CFR 1.19 Document supply fees.

Section 1.19, paragraphs (a), (b) and (d)-(h), is revised to adjust fees authorized by 35 U.S.C. 41(d) as amended by 5(a)(3) of H.R. 3531. In response to comments on the proposed level of the non-statutory patent fee amounts and Congressional direction to recover a lower level of planned costs overall, the adopted fee amounts in paragraphs (a)(1)(iii), (a)(2), (a)(3), (b)(1), (b)(4), (d), and (f) are less than the proposed amounts.

Section 1.19 is revised further to establish that the Office will sell certified or uncertified copies of documents at the same flat fee. Most requests for documents are for certified copies. Customers who need uncertified copies of documents or copies of portions of documents also are able to make those copies themselves at a self-service copy charge, per page.

Subparagraph (a)(1) also is revised to clarify and set fees for different levels of service available for obtaining copies of patents in black and white. In addition to regular service, the PTO will provide for expedited local service to be fulfilled within one workday for orders delivered to the Public Service Window at double the fee amount set for regular service; and expedited service for copies ordered via electronic ordering service and delivered by overnight delivery service as previously provided by subparagraph (a)(6). There are two Public Service Windows at the PTO: one in the Patent Search Room and another in the Trademark Search Library. Unless otherwise requested, copies of patents will be delivered to the Public Service Window in the Patent Search Room.

Section 1.19, subparagraph (a)(2), is revised further to delete reference to copies of statutory invention registrations in color, which will be provided by renumbered subparagraph (a)(3).

Section 1.19 is revised to delete existing subparagraph (a)(3). In the future, the PTO only will provide certified or uncertified copies of documents at a flat fee, as set forth in renumbered subparagraph (b)(3).

Section 1.19, renumbered subparagraph (a)(3), is revised further to clarify and set fees for different levels of service available for obtaining copies of utility patents or statutory invention registrations containing color drawings. Subparagraph (a)(3) has been modified from the proposal to delete reference to expedited local service because this service cannot be provided by the PTO contractor.

Section 1.19 is revised further to delete subparagraphs (a)(5) and (a)(6). The service formerly provided under subparagraph (a)(5) will be provided under subparagraphs (a)(1)(ii) and (a)(2)(ii), and the service formerly provided under subparagraph (a)(6) will be provided under (a)(1)(iii).

Section 1.19, subparagraph (b)(1), is revised further to clarify and set fees for different levels of service available for obtaining certified or uncertified copies of patent applications as filed. In addition to regular service, the PTO will provide for expedited service, fulfilled within five work days, excluding mailing time, at double the fee amount set for regular service.

Section 1.19, subparagraph (b)(2), is revised to reduce the fee for providing a certified or uncertified copy of a patent file wrapper and contents.

Section 1.19 is revised further to delete existing subparagraph (b)(3). Certified or uncertified copies of assignment records will be provided under renumbered subparagraph (b)(4).

Section 1.19 is revised further to delete existing subparagraph (b)(4). Certified or uncertified copies of Office records will be provided under renumbered subparagraph (b)(3). Expedited service as currently provided under existing subparagraph (b)(4) will be provided under subparagraph (b)(1)(ii).

Section 1.19 is revised further to renumber subparagraph (b)(5) as (b)(3). Section 1.19, subparagraph (b)(3), is revised to establish that the PTO provides certified or uncertified copies of documents at one flat fee amount.

Section 1.19 is revised further to renumber subparagraph (b)(6) as (b)(4) and to include services formerly provided under subparagraph (b)(3) in addition to certified and uncertified copies of abstracts of title.

Section 1.19, paragraph (g), is modified from the proposal. The PTO will continue to compare and certify copies of documents made from PTO records, but not prepared by PTO staff.

37 CFR 1.20 Post-issuance fees.

Section 1.20, paragraphs (a)-(c), is revised to adjust the fees authorized by 35 U.S.C. 41(d) as amended by subsection 5(a)(3) of H.R. 3531. In response to comments on the proposed level of the non-statutory patent fee amounts and Congressional direction to

recover a lower level of planned costs overall, the adopted fee amounts are less than the amounts proposed.

Section 1.20, paragraph (d), is revised to reflect the amendments made by subsections 2(b) and 5(a)(1) of H.R. 3531 as described above under General Procedures.

Section 1.20, paragraphs (e)-(g), is revised to reflect the amendments made by subsections 2(b) and 5(a)(2) of H.R. 3531 as described above under General Procedures, and to provide for the payment of maintenance fees on original and reissue patents, except design or plant patents, based on all applications filed on or after December 12, 1980. Paragraphs (e)-(g) formerly provided for the payment of maintenance fees on original and reissue patents, except design or plant patents, based on applications filed on or after December 12, 1980, but before August 27, 1982. Paragraphs (h)-(j), which are deleted, provided for the payment of maintenance fees on original and reissue patents, except design or plant patents, based on applications filed on or after August 27, 1982. The distinction in the maintenance fee due based on the application filing date was eliminated by subsection 5(a)(2) of H.R. 3531.

For patents based on applications filed on or after December 12, 1980, but before August 27, 1982, patent owners must establish small entity status according to 37 CFR 1.27 if they have not done so and if they wish to pay the reduced fee amounts.

Section 1.20 is revised to delete paragraphs (h)-(j). The fees for maintaining all original or reissue patents, except design or plant patents, including those based on applications filed on or after August 27, 1982, are set forth in paragraphs (e)-(g). Reissue patentees are reminded that the due dates for payment of maintenance fees are computed from the date of grant of the original (non-reissue) patent.

Section 1.20 is revised to renumber paragraph (k) as paragraph (h), and adjust the fee amount authorized by 35 U.S.C. 41(d) as amended by subsection 5(a)(3) of H.R. 3531. Revised paragraph (h) provides for a surcharge for payment of a maintenance fee during the six-month grace period following the expiration of three years and six months, seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after December 12, 1980. Paragraph (k) formerly provided for a surcharge for late payment of maintenance fees on original and reissue patents, except design or plant patents, based on applications filed on or after December 12, 1980, but before August 27, 1982. Paragraph (l), which is deleted, provided for a surcharge for late payment of maintenance fees on original and reissue patents, except design or plant patents, based on applications filed on or after August 27, 1982.

Section 1.20, new paragraph (h), has been modified from the proposal to provide a two-tier fee structure for payment of the maintenance fee surcharge. The fifty percent reduction for those that have established small entity status is applicable to the surcharge for payment of maintenance fees within the six-month grace period. Further, in response to comments and Congressional direction, the adopted fee amount is less than the amount proposed.

Section 1.20 is revised to delete paragraph (l). The fees for the late payment of a maintenance fee for all original or reissue patents, except design or plant patents, based on applications filed on or after December 12, 1980, are set forth in renumbered paragraph (h).

Section 1.20 is revised to renumber paragraphs (m) and (n) as paragraphs (i) and (j), and adjust the fee amounts as authorized by 35 U.S.C. 41(d) as amended by subsection 5(a)(3) of H.R. 3531. Further, in response to comments and Congressional direction, the adopted fee amount in paragraph (i) is less than the amount proposed.

37 CFR 1.21 Miscellaneous fees and charges.

Section 1.21, paragraphs (a), (c), (e), (g), (h), (j), (l) and (n), is revised to adjust fees as authorized by 35 U.S.C. 41(d) as amended by subsection 5(a)(3) of H.R. 3531. In response to comments on the proposed level of the non-statutory patent fee amounts and Congressional direction to recover a lower level of planned costs overall, the adopted fee amounts in sub-paragraphs (a)(1), (a)(3), (a)(5), (a)(6), (j), (l) and (n) are less than the amounts proposed. The proposed changes to paragraphs (d) and (m) have not been adopted.

Section 1.21, subparagraph (a)(4), is revised further to provide a certificate of good standing for $10 and a certificate that is suitable for framing at double that fee amount.

Section 1.21, subparagraph (b)(1), is revised to eliminate the fee requirement for reinstating a deposit account. This fee requirement has been found to be unnecessary because the Office no longer suspends accounts when there is no activity.

Section 1.21 is revised to delete paragraph (f), since searching PTO records will be provided under revised paragraph (j). Paragraph (f) is reserved.

Section 1.21, paragraph (g), is revised further to clarify that the $.25 fee amount for each photocopy established by subsection 5(a)(3) of H.R. 3531 is for a self-service copy charge amount, per page. The self-service copy charge will be applied to the per copy amounts on copy access system cards as previously provided by this paragraph.

The same copy charge will be required for each printed page generated from the Automated Patent System, as previously provided by paragraph (q).

Section 1.21, paragraph (h), is revised to establish the fee for recording each assignment in accordance with subsection 5(a)(3) of H.R. 3531.

Section 1.21, paragraph (j), is revised to eliminate the fee for providing duplicate Office user passes. The Office will provide duplicate passes free of charge.

Revised paragraph (j) establishes one fee amount for each hour of service, or fraction thereof, requested from the PTO. Examples of services are searching PTO records, as previously provided by this paragraph; PTO staff assistance to conduct a search using the Automated Patent System, as previously provided in paragraph (p); and other miscellaneous requests for services where PTO staff are providing direct labor support to customers.

Section 1.21, paragraph (k), is revised to require the payment of the actual cost for performing special services provided by the PTO. Generally, services provided by the PTO would be charged at the $30.00 hourly rate set forth in paragraph (j) of this section. Paragraph (k) is reserved for non-labor charges, such as computer services, special supplies, extra mailing costs, etc., that are authorized by the customer.

37 CFR 1.24 Coupons.

Section 1.24 is revised to adjust the fee for the purchase of coupons for patents and trademarks to make it comparable to the fee required for the purchase of copies of patents and trademarks and to adjust the amount of the coupon books.

37 CFR 1.26 Refunds.

Section 1.26, paragraph (c), is revised to provide for a refund of $1,635 if the Commissioner decides not to institute reexamination proceedings. The $1,635 refund would apply to those instances where the proposed reexamination fee of $2,180 under 37 CFR 1.20(c) was paid. The current $1,500 refund would be made in those cases where the current $2,000 reexamination fee was paid.

37 CFR 1.171 Application for reissue.

Section 1.171, paragraph (a), is revised to change the reference for payment of a fee for a title report to section 1.19(b)(4).

37 CFR 1.296 Withdrawal of request for publication of statutory invention registration.

Section 1.296 is revised to adjust the handling fee for withdrawal of a statutory invention registration as authorized by 35 U.S.C. 41(d) as amended by subsection 5(a)(3) of H.R. 3531. In response to comments on the proposed level of the non-statutory patent fee amounts and Congressional direction to recover a lower level of planned costs overall, the adopted fee amount is less than the proposed amount.

37 CFR 1.362 Time for payment of maintenance fees.

Section 1.362 is amended to revise paragraphs (a) and (e) to refer to renumbered paragraphs in section 1.20, and to revise paragraph (b) to clarify that maintenance fees are not required for any plant or design patents.

37 CFR 1.378 Acceptance of delayed payment of maintenance fee in expired patent to reinstate patent.

Section 1.378 is amended to revise paragraphs (a)-(c) and (e) to refer to renumbered paragraphs in section 1.20.

37 CFR 1.445 International application filing, processing, and search fees.

Section 1.445 is revised to adjust the fees authorized by 35 U.S.C. 376 for international application processing as set forth in 37 CFR 1.445(a) in accordance with subsection 5(a)(3) of H.R. 3531. In response to comments on the proposed level of the non-statutory patent fee amounts and Congressional direction to recover a lower level of planned costs overall, the adopted fee amounts are less than the amounts proposed.

37 CFR 1.482 International preliminary examination fees.

Section 1.482 is revised to adjust the fees in paragraph (a) in accordance with subsection 5(a)(3) of H.R. 3531. In response to comments on the proposed level of the non-statutory patent fee amounts and Congressional direction to recover a lower level of planned costs overall, the adopted fee amount is less than the amount proposed.

37 CFR 1.492 National stage fees.

Section 1.492, paragraphs (a)-(d), is revised to reflect the amendments made by subsections 2(b) and 5(a)(1) and 5(g) of H.R. 3531 as described above under General Procedures.

Section 1.492 is revised further to add new subparagraph (a)(5) to set forth a fee upon entering the national stage when a search report on the international application has been prepared by the European Patent Office or the Japanese Patent Office. The proposed fee amount includes a reduction approximately equivalent to the reduction of 20 percent of the cost of conducting a search that is given by the European and Japanese Patent Offices upon entering the national stage when a search report in an international application has been prepared by the U.S. Patent and Trademark Office.

Section 1.492, paragraphs (e) and (f), is revised to adjust fees authorized by 35 U.S.C. 41(d) as amended by subsection 5(a)(3) of H.R. 3531. Paragraph (e) has been modified from the proposal to provide a two-tier fee structure for payment of the surcharge. The fifty percent reduction for those who have established small entity status is applicable to the surcharge for late filing of the basic national fee or oath or declaration later than 20 months from the priority date.

37 CFR 1.740 Application for extension of patent term.

Section 1.740, paragraph (a)(14), is revised to change the reference to the rule for extension of a patent term to section 1.20(j).

37 CFR 1.770 Express withdrawal of application for extension of patent term.

Section 1.770 is revised to change the reference to the rule for extension of a patent term to section 1.20(j).

37 CFR 2.6 Trademark fees.

Section 2.6 is revised to be divided into two sections. Revised paragraph (a) includes all trademark processing fees and revised paragraph (b) includes all trademark service fees. Paragraphs (a) and (u) are renumbered as subparagraphs (a)(1) and (a)(2); paragraphs (v), (b), (s), (c)-(l) are renumbered as subparagraph (a)(4)-(a)(16), respectively; and paragraph (m) is renumbered as subparagraph (a)(18). New subparagraphs (a)(3) and (a)(17) are added.

Paragraph (n) is renumbered as subparagraph (b)(1); paragraphs (o), (q), (r), and (w) are renumbered as subparagraphs (b)(5)-(b)(8), respectively; and paragraph (t) is renumbered as subparagraph (b)(11). New subparagraphs (b)(2)-(b)(4), (b)(9) and (b)(10) are added.

Section 2.6, renumbered paragraphs (a)(1) and (b), is revised further to adjust fee amounts in accordance with subsection 5(f) of H.R. 3531. In response to comments on the proposed level of the trademark fee amounts and Congressional direction to limit adjustments to fluctuations in the Consumer Price Index, the adopted fee amounts in subparagraphs (a)(1), (b)(1)(iii), (b)(2), (b)(4), (b)(7), and (b)(10) are less than the proposed amounts. The proposed changes to subparagraphs (a)(6) and (a)(12)-(18) have not been adopted.

VOL 1133 ISS 4 DE 24 1991 UMI

Subparagraph (a)(2) is revised further to delete reference to filing a statement of use. New subparagraph (a)(3) is established for filing a statement of use under section (1)(d)(1) of the Act, per class. This clarifies that a $100 fee amount is due for each action requested.

Subparagraph (a)(5) has been modified from the proposal so that the words "an application" are not deleted.

Subparagraph (a)(6) is revised further to clarify the requirement for paying an additional fee for a renewal application made within three months of the expiration of the registration.

Subparagraph (a)(16) is revised further to delete reference to filing a notice of opposition. New subparagraph (a)(17) is established for filing a notice of opposition.

Section 2.6(b) is revised further to establish that the Office will sell certified or uncertified copies of documents at the same flat fee. Most requests for documents are for certified copies. Customers who need uncertified copies of documents or copies of portions of documents also are able to make those copies themselves for a self-service copy charge, per page.

Subparagraph (b)(1) is revised further to delete reference to a copy showing title and/or status. In addition, this subparagraph clarifies the levels of service available for obtaining printed copies of trademarks. In addition to regular service provided by subparagraph (b)(1)(i), the PTO will provide, in new subparagraph (b)(1)(ii), for expedited local service to be fulfilled within one workday for orders delivered to a Public Service Window at double the fee amount for regular service. There are two Public Service Windows at the PTO: one in the Patent Search Room and another in the Trademark Search Library. Unless otherwise requested, all copies of trademarks will be delivered to the Public Service Window in the Trademark Search Library. New subparagraph (b)(1)(iii) establishes a fee for providing expedited service for a copy of a registered mark ordered by electronic ordering service and delivered to the customer within two workdays.

Under new subparagraph (b)(2), the PTO will provide a certified or uncertified copy of a trademark application as filed. In addition to regular service provided under (b)(2)(i), the PTO will provide, in subparagraph (b)(2)(ii), for expedited service fulfilled within five workdays, excluding mailing time, at double the fee amount for regular service.

Under subparagraph (b)(3), the PTO will provide certified or uncertified copies of trademark file wrappers and contents at the same flat fee amount.

Subparagraph (b)(4) is revised further to provide certified copies of registered marks, showing title and/or status, as provided under the current section 2.6(n). In addition to regular service provided by (b)(4)(i) at a fee, the PTO will provide, in subparagraph (b)(4)(ii), for expedited service fulfilled within five workdays from receipt of request in the Trademark Post-Registration Division, excluding mailing time, at double the fee amount for regular service.

Subparagraph (b)(5) is revised further to provide certified or uncertified copies of trademark records, per document, except as otherwise provided in this section, at a flat fee amount. Further, expedited services now are included as subparagraphs (b)(2)(ii) and (b)(4)(ii).

Section 2.6 is revised to delete existing paragraph (p). A self-service copy charge is provided in subparagraph (b)(9) of this section.

Section 2.6, subparagraph (b)(6), has been modified from the proposal to establish a fee of $40 for the first property and a fee of $25 for all subsequent properties.

Subparagraph (b)(7) is revised further to clarify that the fee amount charged will cover a search of assignment records and an abstract of title and certification.

Section 2.6 is revised to delete paragraph (x). This service will be provided under proposed subparagraph (b)(9).

New subparagraph (b)(9) will establish a self-service copy charge, per page, and will be a replacement for the services offered in paragraphs (p) and (x) which are being deleted. The $.25 self-service copy charge will be applied to the per copy amounts on copy access system cards, and for each printed page generated from the Automated Trademark System, as previously provided by paragraph (x).

New subparagraph (b)(10) establishes one fee amount for each hour of service, or fraction thereof, requested from the PTO. Examples of services would be searching PTO records, as previously provided by this paragraph, and other miscellaneous requests for services where PTO staff are providing direct labor support to customers.

Subparagraph (b)(11) is revised to clarify that the services to be provided would be those that are not specified elsewhere in the statute or rules. Adding this language makes the wording of this rule comparable to section 1.21(k). Generally, services provided by the PTO will be charged at the $30.00 hourly rate set forth in subparagraph (b)(10) of this section. Subparagraph (b)(11) is reserved for non-labor charges, such as computer services, special supplies, extra mailing costs, etc., that are authorized by the customer.

Response to Comments on The Rules

A notice of proposed rulemaking to adjust patent and trademark fees in accordance with the proposed provisions of H.R. 1613 and S. 793 was published in the *Federal Register* on May 10, 1991, at 56 FR 21890, and in the *Official Gazette* on May 21, 1991, at 1126 OG 56. A public hearing was held on June 12, 1991.

Although comments were received on a variety of subjects related to patent and trademark examination processes, only those relating directly to this notice are being addressed. Other comments relating to patents have been forwarded to the Advisory Commission on Patent Law Reform for their review and consideration. Examples of comments that have been referred to the Advisory Commission include:

Comment: One respondent stated that, because some patentees make money off their patents while others "enhance the progress in the useful arts" by disclosing technology, not all inventors should share the same costs. PTO should investigate measures for decreasing costs, increasing efficiencies, and reallocating costs among users.

Comment: Fees should be raised proportionately without eliminating the two-tier system and with only baseline budgets.

Comment: PTO should set maintenance fees based on the use of the patent; for example, similar to a sales tax which would be reported and paid by the owner of the patent.

Comment: An alternative to the two-tiered system would be a system whereby one-half the fees for a small entity would be deferred until five years after the patent is granted.

Comment: PTO should reexamine the post-issuance process as a potential source of new revenues, e.g., raising fees for assignments and establishing filing fees for the recordation of lawsuits. More intensive use of maintenance fees could result in a trust fund to be used for such major projects as automation.

Comment: The patent system might benefit if PTO were established as a Government corporation. As a Government corporation, the PTO would have the financing and management flexibility which has benefitted other Government agencies.

Comment: PTO should redefine a small entity in order to decrease the number of persons receiving the subsidy.

The following comments relate to the proposed rule notice:

Comment: A majority of the comments received protested the PTO's proposal in H.R. 1613 and S. 793 to limit the small entity subsidy to application fees and claims fees paid upon filing.

Response: As enacted, H.R. 3531, did not contain the proposed change. Therefore, the small entity subsidy provided in 35 U.S.C. 41(h) continues to apply to fees set forth in 35 U.S.C. 41(a) and (b) as amended by subsections 5(a)(1) and (2) of H.R. 3531.

Comment: The PTO should publish an additional fee schedule and invite public comments after legislation is approved by Congress.

Response: Due to the delay in the enactment of PTO's authorization legislation, Congress waived normal notice and comment rulemaking procedures. Thus, H.R. 3531 provides that, in fiscal year 1992, the fees will take effect on or after one day after the fees are published in the *Federal Register*.

Comment: Several respondents indicated that the proposed rules would establish the PTO as a user-funded government agency and, as such, the Office would no longer be subject to Congressional oversight.

Response: The Office became essentially user-fee funded, with the exception of approximately $1.5 million of taxpayer revenues in fiscal year 1992, upon enactment of the Omnibus Budget Reconciliation Act of 1990 (Public Law 101-508) on November 5, 1990. That Act simply changed the source of funding for the PTO but did not change its character as a Federal agency which is part of the Department of Commerce within the Executive Branch. As a Federal agency, the PTO must prepare and submit its annual budget requests to the Secretary of Commerce and the Office of Management and Budget. The PTO's request is included in the President's annual budget submission to Congress. Congress continues to have oversight for PTO programs, and the annual budget request is subject to the Congressional appropriations process. H.R. 3531 also contains a provision whereby the PTO will continue to submit an annual report to the Committees on the Judiciary of the Senate and the House of Representatives which includes fee collections for the prior year; activities during the prior year that were supported by fee expenditures; budget plans for significant programs, projects and

activities; and any proposed disposition of surplus fees by the Office. Furthermore, the PTO is governed by reprogramming guidelines specified in the Department of Commerce's annual appropriations act.

Further, subsection 5(d)(3) of H.R. 3531 requires the Commissioner to report to the Congress, with publication in the *Federal Register*, on the automated search system, and its use by the public.

Comment: Why should present users be forced to support impractical and wasteful PTO programs and policies, such as the automation program and the installation of posh conference rooms.

Response: While questions have been raised as to the source of funding for the PTO's automation program, several witnesses at oversight hearings supported the need to automate patent and trademark operations.

The automation programs are designed to improve the quality and timeliness of PTO services and products, and to discontinue reliance on outmoded manual processes and paper references. These improvements will benefit not only PTO employees but also PTO users. Decisions by Congress on PTO fees in 1992 have been interpreted as supportive of the automation programs (since fees fund the programs), although less funds for the programs will result in slower implementation.

With respect to the PTO's conference rooms, PTO attempts to provide a favorable work environment for its employees and for its customers while they are doing business at the Office.

Comment: PTO should look for hardware and software that is already completed rather than developmental for its automation program.

Response: In March 1988, an Industry Review Panel was established by the Secretary of Commerce to review the Automated Patent System (APS) program. Their findings regarding the design and architecture of APS were: "At this time, there is no totally off-the-shelf system that can provide the capabilities and performance PTO needs for patent search and retrieval. Even the majority of the individual components are not available off-the-shelf. Currently available products do not provide the performance (e.g., flip rate) nor can they handle the workload (e.g., number of users and data volumes) required if APS is to support the examining corps in its day-to-day operations. For example, even considering the recent advances in workstation technology, a custom workstation is needed for APS image retrieval and manipulation."

In light of several technological forecasts performed since then, the PTO continues to agree with this assessment. However, the report also stated, "the PTO should [plan] to re-procure key systems components [at appropriate times] to take advantage of improvements in technology and dropping prices." Therefore, within the last few years, the PTO has begun to reprocure several major APS components, such as the devices used to store electronic images of patents, the workstations used for searching these images, and the network needed to connect APS.

Comment: PTO should determine whether or not private contractors in industry can accomplish functions of the PTO.

Response: PTO has been following the guidelines of OMB Circular A-76, "Performance of Commercial Activities", since 1981. PTO's A-76 studies identified specific savings

VOL 1133 ISS 4 DE 24 1991 UMI

that were taken in fiscal years 1983 and 1985 budgets for activities such as file maintenance, facilities management and patent copy fulfillment. The PTO will continue to examine those functions now undertaken by Federal personnel that could be performed by contractor personnel.

Comment: Fee amounts will become unreasonable and unfair if the Commissioner is given the opportunity to increase them every two years.

Response: This provision, which was proposed in H.R. 1613, is not included in the enacted legislation. H.R. 3531 provides that patent statutory fees (for example, filing, issue, and maintenance fees) may be adjusted each year by fluctuations in the Consumer Price Index over the preceding 12 months.

Comment: Congress has given the Commissioner the ability to tax the public by charging fees at amounts greater than the cost of providing the service. In particular, non-statutory fees should be set to recover the actual cost of a service or product and not to recover a percentage of overall operating costs.

Response: H.R. 3531 directs that patent non-statutory fees be established "to recover the estimated average cost to the Office of such processing, services, or materials." Exceptions are assignment, photocopy and printed copy fees which are set by statute. The PTO has complied with Congressional intent on this subject, and many fee amounts have been lowered from the proposal.

Comment: The premises, assumptions and models used in formulating the proposed fees are not provided so that a respondent can determine whether the fee increases are justified.

Response: Since the publication of the notice of proposed rulemaking on May 10, 1991, the PTO's proposals for 1992 fee rates and its budget have undergone significant changes. The proposed rule package would have adjusted fees to recover a 1992 budget of $462 million. The fee adjustments that have been adopted in this final rule package will recover a 1992 budget of $426 million, a reduction of $36 million. This recovery level reflects Congressional views on the amount of change required for each fee and on the content of the 1992 budget request. An explanation of the methodology used in formulating the adopted fee amounts is included under General Procedures.

Comment: There appears to be no added value for the increased fees since there are no significant improvements in services planned.

Response: The proposed rule package which was published in the *Federal Register* on May 10, 1991, would have adjusted fees to address a 1992 budget of $462 million. This proposed budget included $110 million in increases over the 1991 budget. At an aggregated level, the $110 million increase addressed the following: $30 million for inflation, cost-of-living salary adjustments and other uncontrolled costs; $45 million for increased workload; $18 million for automation initiatives for patents and trademarks; and $17 million for quality enhancements.

Included in the above are improvements in service such as deployment of the Automated Patent System to the public and to the examiners in 1993; improved search services for biotechnology patent examiners; replacement of the automated search system in Trademarks (T-Search); improved management of the patent and trademark operations; enhanced patent classification services; and maintenance of patent and trademark pendency goals.

The PTO currently is in the process of readjusting its 1992 programs and plans to respond to the proposed $426 million program level that is the result of H.R. 3531. While this level is still a significant increase above the 1991 budget, the majority of the increased funds will be used to address inflationary and other uncontrollable costs and workloads. Many of the initiatives proposed under the $462 million level cannot be undertaken in 1992.

Comment: The divergence in charges for recording assignments within a four-year period appears arbitrary, and brings into question the rationale and assumptions used in creating the increase. If owners were to forego the process of recording assignments, PTO records would be incomplete, registration could not be renewed in the name of the true owner, and the patent and trademark systems would suffer. A more viable approach would be to return to a reasonable base fee and a reduction of the fee for subsequent properties.

Response: Trademark assignment fees previously were set at $100 for the first property and $20 for all subsequent properties. The original trademark fee schedule was recommended by Congress, in conjunction with the trademark user community, and was designed to keep the filing fee low and raise certain other fees to recover the costs of the Office. In 1989, the trademark assignment fees were reduced to a flat $8 per property. Although this was the actual unit cost to the Office for processing assignments at that time, it was based on antiquated systems, lengthy processing times and questionable quality. In response to public comments, particularly those from the Public Advisory Committee for Trademark Affairs, fees of $40 for the first trademark property and $25 for all subsequent properties in the same document have been adopted.

A flat $40 per patent property assignment fee is established by 35 U.S.C. 41(d) as amended by subsection 5(a)(3) of H.R. 3531.

Comment: PCT fees are proposed at disproportionately higher levels than U. S. national fees. This disparity compromises both the spirit of the PCT and its practical effectiveness for users.

Response: Some PCT fees were set by Congress in H.R. 3531. As to the fees for which the Commissioner has been delegated authority to set, these fees have been modified to more accurately reflect the costs of providing the associated services as required by 35 U.S.C. 41(d) as amended by subsection 5(a)(3) of H.R. 3531.

Comment: The omission of small entity reductions for PCT applicants, but not national applicants, discriminates against small entities which use the PCT.

Response: National stage PCT fees have been added to 35 U.S.C. 41(a), therefore making applicants eligible for the small entity reduction.

Comment: The PCT fees for entry into the national stage should be reduced.

Response: PCT fees for entry into the national stage essentially have been set by Congress. The PCT national stage fees are generally at a higher level than U.S. national fees to reflect the increased cost associated with processing national stage applications having multiple inventions which must be processed pursuant to the principle of unity of invention. This difference between national stage fees and national application fees was established at the time of and because of a change in approach to unity of invention

issues as a result of the decision in *Caterpillar Tractor Co. v. Commissioner of Patents and Trademarks*, 650 F. Supp. 218, 231 USPQ 590 (E.D.Va. 1986).

Comment: Fees for PCT applications which include an international advisory search and examination by a foreign patent office effectively penalize rather than recognize the procedural assist.

Response: The content of an international search report or results of a preliminary examination would generally come to the attention of the PTO through an information disclosure statement or through communications from the International Bureau. Where the Japanese Patent Office or European Patent Office provides both the results of the search together with copies of the documents and their pertinence to patentability, these reports have been of assistance to the PTO examiner and are reflected in the new fee.

Comment: As a cost-saving and efficiency measure, the PTO should remove all prescreening of applications and require the examiner to perform any screening needed.

Response: To require patent examiners to perform screening of the formal requirements of the filing of an application would not be efficient or result in cost savings. This screening is performed by clerical personnel in the Application Branch who are paid less than patent examiners and can readily and effectively review a patent application for compliance with formal requirements.

Comment: PTO should remove the statutory change relating to the declaration to avoid the need to staff the Office with trained individuals for reviewing the document. The regulations could be replaced with a mere statement of inventor's name and address provided by the applicant. At the very least, the PTO should allow filing of facsimile copies of declarations at the filing date to avoid the late fee.

Response: The requirement for an oath or declaration is set by statute (35 U.S.C. 115) and is not subject to elimination under the rulemaking authority of the Commissioner. The appropriateness of accepting papers by facsimile has been the subject of a trial program and will be addressed in a future proposal.

Comment: The proposed change which would establish one petition fee amount is reasonable for some petitions and unreasonable for other petitions.

Response: The fee proposed for petitions and other fees are intended to recover the estimated cost of the operations of the PTO. Each petition fee need not, and does not, necessarily recover only the cost of processing and deciding a specific type of petition. Use of one petition fee amount eases the administrative burden on the public and on the PTO of being required to determine the correct fee amount for the particular petition being filed.

Comment: The proposed 50 percent increase in the reexamination fee is too high.

Response: A fee amount of $2,180, which represents a nine percent increase, has been adopted.

Comment: The progressive schedule for the extension-of-time fees is burdensome on a foreign applicant, particularly a small entity. Processing a three-month extension does not require any more effort from PTO than processing a one-month extension.

Response: Extension of time fees are mandated by statute and any increases reflect changes in the CPI as permitted by 35 U.S.C. 41(f) as amended by subsection 5(b) of H.R. 3531.

Comment: The proposed increase in the fee to $300 for late filing of an inventor's oath and/or filing fee might force applicants to delay filing while, for example, obtaining an absent inventor's signature. Public policy to encourage prompt filing--especially important in securing international rights in countries observing strict novelty requirements--suggests the fee be more moderately adjusted.

Response: The adopted fee amount is $130.00 and the small entity subsidy is applicable to surcharge fees for late filing of the basic filing fee or oath or declaration (37 CFR 1.16(e)), for paying a maintenance fee within the six month grace period (37 CFR 1.20(h)), and for filing the basic national fee or oath or declaration later than 20 months in a PCT application (37 CFR 1.492(e)).

Comment: Two respondents expressed opposition to the proposed elimination of the trademark "fence" which, along with stringent public and Congressional oversight, has generally resulted in a fair and reasonable fee schedule. Trademark operations already are 100 percent user-fee funded, and proportionately contributing to PTO overhead costs does not justify the proposed fee increases.

Response: The enacted legislation, H.R. 3531, maintains the "fence" around the use of trademark fees. Trademark fees, however, can be used to fund activities relating to trademarks and to cover a proportionate share of the administrative costs of the PTO.

Comment: The Assistant Commissioner for Trademarks has stated that the actual cost of examining a new trademark application is approximately $225, yet the proposed fee is $250. This could generate a substantial trademark operating surplus which eventually could help underwrite patent operations.

Response: The fee for filing a trademark application has been set at $200. This amount is consistent with the original trademark fee schedule that was recommended by Congress, in conjunction with the trademark user community, to keep the filing fee low and raise certain other fees to recover the costs of the Office.

Comment: The proposed increase in the trademark application filing fee without a corresponding change in Office needs, activities or costs could create a disincentive to Federal registration.

Response: There has been a change in Office needs, activities and costs which justifies the fee increase to $200. As a result of implementation of the Trademark Law Revision Act of 1988, the Office has hired a substantial number of new examining attorneys and other personnel and relocated to new, more appropriate office space. Further, the Office will incur costs connected with the replacement of its current automated search system.

Comment: One respondent questioned PTO's statement in the notice of proposed rulemaking that small entities have the option of not registering their marks under the Federal system, but can choose to use their marks under common law. Deterring applicants from using the Federal registration system will have two additional undesirable consequences. Since fewer trademark owners will apply for registration, the projected revenues may be reduced, thus impairing operations. Second, with declining use of the Federal system, proportionately more trademarks will not be

readily available for searching purposes. Potential trademark owners will face higher risks in adopting and using new marks.

Response: The proposal has been modified to adopt a fee of $200 for filing a trademark application. The referenced statement was made in the section of the proposed rulemaking that addressed the potential impact of the proposed fees on small business. While the PTO does not want to discourage small entities from filing Federal trademark applications, and does not believe that the proposed fee increase will have that effect, the fact remains that trademark rights in the United States are based on actual use of the mark, not on Federal registration. The PTO is cognizant of, and sympathetic to, the concerns expressed in the comment.

Comment: Proposed trademark fees for filing a petition to cancel or a notice of opposition impose an unfair and burdensome penalty on businesses and individuals who wish to protect their rights. Although the base fee of $400 may cover PTO's costs for handling the proceedings, the corresponding fee of $400 for each additional class is not reasonable.

Response: The PTO has amended its proposed rule to indicate the fee for filing a petition to cancel or a notice of opposition will remain at $200 and the charge will still be per class.

Comment: The current practice of charging separate fees for each "opposer" or "petitioner" should be discontinued since it is only one proceeding in the eyes of the PTO with an essential requirement that the opposing/petitioning parties have a unitary interest in the opposition/cancellation proceeding.

Response: This comment is directed at 37 CFR 2.101 and 2.111 which are not the subject of this rulemaking. The PTO will consider this comment the next time it proposes amendments to the Trademark Rules of Practice.

Comment: The proposed increase in the section 8 and 15 affidavit fees could force registrants out of the Federal system. Since section 8 and section 15 affidavits can be filed on the same document, the fee for a combined affidavit should be less than the fees for filing the documents separately, thereby more closely relating to the cost of processing.

Response: The proposed adjustment to section 8 and 15 affidavit fees has not been adopted. Further, it has been a longstanding policy for the PTO to set the fee for a combined section 8 and 15 affidavit at double the fee for either a section 8 affidavit or a section 15 affidavit alone.

Comment: The proposed $200 fee for filing a late renewal is an excessive penalty. The resulting $500 cost of late renewal ($300 renewal fee plus $200 penalty) could cause the abandonment of registrations for marks still in use to the detriment of the registration system.

Response: In response to public comments, the fee for filing a late renewal application remains at $100.

Comment: The proposed fee for obtaining a copy of a trademark file wrapper seems unjustified.

Response: The adopted fee amount of $50 takes into consideration the costs incurred prior to actually copying a file, such as equipment, supplies and staff time necessary to locate and retrieve a file, as well as the copy charge and cost of certification.

Comment: One respondent asked why the PTO is proposing to change the way certification services are provided.

Response: PTO had proposed the change in the present "compare and certify" procedure in order to increase internal controls over services being provided to customers, and thereby enhance the quality of the product ultimately delivered to the customer. PTO is concerned that it have full responsibility for all phases of the processing of certified copies. Although it is quicker and less expensive for the PTO to copy the documents and certify them than to properly compare each document to the original and then certify them, in response to public comments, particularly from patent and trademark services firms, the Office will continue to compare and certify copies made from Office records, but not prepared by PTO staff.

Comment: The proposed rule makes no provision for expedited services for copies of patent or trademark file wrappers and contents.

Response: The PTO cannot guarantee that the file will be located within the shortened period of time required for expedited service.

Comment: There does not appear to be a fee listed for a certified copy of an assignment deed, expedited or otherwise. Will this service be provided?

Response: This service will be provided under 37 CFR 1.19(b)(4). The wording of this rule has been changed to read, "For assignment records, abstract of title and certification, per patent" and covers the provision of certified and uncertified copies of assignment documents as well as certified or uncertified copies of abstracts of title. 37 CFR 2.6(b)(7) also has been changed to clarify the services provided.

Comment: Respondents questioned the basis for the proposed $40 per hour fee for labor. One respondent asked if the $40 per hour fee would apply while a file was being located, say, over a week's time?

Response: The purpose of this fee, which has been adopted at $30, is to set a flat amount for special labor services for which there is no specific fee for the service the customer has requested. This flat labor fee is to complement 37 CFR 1.21(k) which reads "For items and services that the Commissioner finds may be supplied, for which fees are not specified by statute or by this part, such charges as may be determined by the Commissioner with respect to each such item or service."

Comment: Several respondents opposed the proposed reduction from 60 to 30 days for the period of time between publication of a final rule and the effective date.

Response: Subsection 5(c)(1) of H.R. 3531 establishes the requirement that the PTO must publish a final notice in the *Federal Register* and the Patent and Trademark Office *Official Gazette* at least 30 days prior to the effective date of new fee amounts, except for fees set in fiscal year 1992, which go into effect the day after they are published in the *Federal Register*.

VOL 1133 ISS 4 DE 24 1991 UMI

Comment: For future publication of proposed rule changes, PTO should return to the previous format of brackets and arrows which explicitly identify language that is added to, or deleted from, the text of a rule.

Response: The PTO followed the accepted procedures of the Office of the Federal Register. In the future, PTO will follow the procedures which, in PTO's judgment, best serve to communicate the proposed changes.

Comment: With the proposed revision to the fee for purchase of coupons, will it still be possible to use the old coupons to purchase copies of patents and trademarks?

Response: Coupons purchased prior to the fee increase and new coupon issuance will continue to be accepted as a means to acquire copies of patents or trademarks. However, the redeemable value of the old coupon issue will be only $1.50. Therefore, for each copy requested, two old coupons or one old coupon plus a $1.50 check or money order must be tendered. Although cash payment is acceptable, checks or money orders are recommended.

OTHER CONSIDERATIONS: The rule change is in conformity with the requirements of the Regulatory Flexibility Act (Pub. L. 96-354); Executive Orders 12291 and 12612; and the Paperwork Reduction Act of 1980, 44 U.S.C. 3501, et seq. There are no information collection requirements relating to patent and trademark fee rules.

The PTO has determined that this notice has no Federalism implications affecting the relationship between the National Government and the States as outlined in Executive Order 12612.

The General Counsel of the Department of Commerce has certified to the Chief Counsel for Advocacy, Small Business Administration, that the rule change would not have a significant adverse impact on a substantial number of small entities (Regulatory Flexibility Act, Pub. L. 96-354). The principal impact of the major patent fees has already been taken into account in H.R. 3531, which provides small entities with a 50 percent reduction in the major patent fees. Further, the rule change implements the fee amounts set by sections 2(b) and 5(a)(1) of H.R. 3531.

The PTO has determined that this rule change is not a major rule under Executive Order 12291. The annual effect on the economy would be less than $100 million. There would be no major increase in costs or prices for consumers; individual industries; Federal, state, or local government agencies; or geographic regions. There would be no significant adverse effects on competition, employment, investment, productivity, or innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.
